The Botho Graduate Profile (BGP)

is a list of qualities that all Botho University students are encouraged to learn and imbibe before they graduate.

ARTICULATE

Able to communicate information eloquently, effectively and appropriately to a given audience.

COLLABORATIVE

Considerate of and able to work and communicate effectively with teams of people from different social and cultural backgrounds.

CRITICAL THINKING

Having the curiosity and open mindedness to acquire new knowledge by analyzing, reflecting on and evaluating information.

DIGITALLY LITERATE

Able to identify trustworthy information and use technology creatively and appropriately to solve problems, make decisions, and improve quality of life.

ENVIRONMENTALLY RESPONSIBLE

Committed to conserving resources and protecting the environment.

INNOVATIVE & ENTREPRENEURIAL

Able to identify opportunities and take measured risk to develop new and improved ideas, processes and products that create value.

KNOWLEDGEABLE & HARDWORKING

Understanding a field of study with the expertise, professionalism, motivation and commitment to apply the knowledge gained to solve problems and deliver quality work.

POSITIVE & CONFIDENT

Being friendly, optimistic, adaptable and resilient, and able to display healthy self-esteem, especially when interacting with others and making decisions.

SOCIALLY RESPONSIBLE

Makes decisions and takes actions ethically, with integrity, and in the best interest of society as a whole.

BGP Skills listed above are based on inputs from industry, academia, research, our context and global best practice and employability reports.

“

Botho is an Ethos, a powerful and revered concept. Similar to **Ubuntu**.
"Botho" is upheld as part of Botswana's 5 National Principles - Our name defines us.

The Spirit of Botho - I am because you are. The possession of good qualities associated with a good human being.

”

ABOUT US - Sub Saharan African University

BOTHO UNIVERSITY - SETTING THE STANDARD IN HIGHER EDUCATION

Botho University stands as one of Botswana's premier private institutions, renowned for its commitment to academic excellence, innovative technology-driven education, and a strong focus on industry-relevant learning. Our reputation as a leader in producing job-ready graduates has been established over 28 years of transformative education in Sub-Saharan Africa. Our affiliation with the International Finance Corporation (IFC), part of The World Bank, has solidified our place among the leading universities across the continent.

Our 2024 Graduate Tracer Study reveals that 82% of our graduates feel confident in achieving their career goals, a testament to the quality education they receive at Botho University.

Botho University 2024 Graduate Tracer Study

with guidance from
 **IFC** International
Finance Corporation
www.ifc.org

We take immense pride in being the only university in Botswana with campuses in four Sub-Saharan African countries: Botswana, Lesotho, Eswatini, and Namibia. Our commitment to digital education is reflected in Botho University Online, which makes our industry-aligned programs accessible to learners across the continent. All of our programs are fully accredited by the relevant regulatory authorities in each country, ensuring that we meet the highest educational standards. We are also the first institution in the region to be ISO 9001:2015 certified for quality management.

ABOUT US - Sub Saharan African University

At Botho University, sustainability is at the heart of our mission. Our Botswana campus holds certification from the Botswana Green Building Council (BotGBC), and we are proud members of the UN Global Compact, advocating for organizations worldwide to adopt sustainable and socially responsible practices.

Education for Sustainability

1100 *Solar Panels in Botswana Campus*

80% *reduction in Water Consumption on campus*

80% *of Electricity Generated from Solar Energy source*

CLOSE TO ZERO *use of Single Use Plastic water bottles at our events*

As part of our commitment to equitable access, we have provided nearly 15,000 digital devices to students across all campuses, ensuring that every learner has the tools they need to succeed, regardless of location or economic background. Our strong partnerships with industry and employers have continued to support our students' career growth, allowing them to thrive professionally after graduation. Our industry partners recognize us as an academic institution that delivers real-world impact and drives positive change.

We invite you to explore this prospectus and learn more about our programmes, as well as visit our website, www.bothouniversity.com or our social media pages to immerse yourself in the remarkable student experience that defines Botho University.

At Botho University, we are dedicated to producing globally competitive graduates who are prepared to transform their opportunities and make a lasting impact. You could be one of them.

FACULTY OF BUSINESS & ACCOUNTING

Bachelor of Commerce in Accounting

Programme details:

This programme helps develop student's understanding of accounting with a deeper look into taxation, auditing, assurance, commerce, finance, strategic management, etc. It is targeted at those who would like to permeate the accounting sector, commercial banking sector, investment sector, or work in public sector companies or accounting firms.

Admission criteria:

1) BGCSE/equivalent with of 5 Passes including English and Mathematics.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Prepare financial statements
- Interpret and analyse financial information
- Interpret and apply financial standards
- Prepare and analyse budgets
- Manage cash flows
- Develop, model and manage risk
- Research on existing problems and develop solutions
- Develop business continuity plans
- Identify and evaluate sources of finance
- Appraise investment projects
- Manage finances
- Plan on taxation issues
- Develop new and innovative ideas and start own enterprises

Career Prospects:

- Accountant
- Auditors
- Educationist
- Taxation Consultants
- Finance Managers
- Accounts Consultants
- Middle Level Managers
- Accounts Clerks
- Bookkeepers

Skills Developed:

- Financial management
- Presentation
- Research
- Analytical
- Critical thinking
- Entrepreneurial
- Problem solving
- Microsoft Word, Excel, Powerpoint

FACULTY OF BUSINESS & ACCOUNTING

Bachelor of Commerce in Investment and Banking

Programme details:

The Bachelor of Commerce in Investment and Banking is a dynamic undergraduate program designed to equip students with essential knowledge and skills in financial markets, investment strategies, risk management, and banking operations. Combining theoretical foundations with practical applications, the program prepares graduates for careers in commercial and investment banking, asset management, financial consulting, and fintech. With a strong emphasis on ethical financial practices and emerging trends such as digital banking and financial technology, this degree ensures that students are well-prepared to navigate the evolving global financial landscape. The programme is also designed for prospective graduates seeking to develop business skills and competencies to start and grow small businesses and contribute to the economic growth of the country.

Admission criteria:

1) BGCSE/equivalent with of 5 Passes including English and Mathematics.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Develop strategies that drive the operations of financial institution
- Effectively communicate financial information and its implications on investment decisions
- Advise on mergers and acquisitions
- Manage financial risk and advise in international trade transactions
- Develop and implement credit policies for financial institutions
- Evaluate macro economic factors and give advice on their effect to financial institutions
- Analyse and evaluate financial information
- Manage investments and develop risk mitigation measures
- Use research information to advise on policy options
- Evaluate the long term profitability of investments and provide advise to investors
- Develop new businesses ideas and help improve existing ones
- Develop and implement corporate governance guidelines for financial institutions

Career Prospects:

- Investment
- Banking
- Portfolio Management
- Accounting
- Estate Administration
- Taxation
- Auditing
- Corporate Governance
- Stock Brokers
- Market Analyst
- Consultancy: Public and Private Sector

Skills Developed:

- An interest in the financial institutions and how they function
- Willingness to work long hours
- Excellent skills in excel
- Good analytical skills, and the ability to see the big picture
- Energetic and an intense desire to learn
- Highly organised and effective decision making
- Internet Savvy
- Enthusiasm and dedication
- Excellent mathematical skills
- Good planning and organizational abilities
- Strong personal and people skills
- Effective communication skills
- Attention to detail
- Adaptability and flexibility

Bachelor of Commerce in Risk Management

Programme details:

This programme provides basic, technical and advanced skills in risk management and insurance. It covers areas such as economics, information technology, accounting, research, risk management, insurance and management which are vital for the success of risk professionals. It develops the knowledge, skills and competencies of risk practitioners who would be employed anywhere in the world.

Admission criteria:

1) BCCSE/equivalent with of 5 Passes including English and Mathematics.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Discover, model and manage risk
- Solve risk and insurance related problems
- Develop corporate governance models
- Research on existing problems and develop solutions
- Develop business continuity plans
- Identify and evaluate sources of finance
- Appraise investment projects
- Manage finances
- Plan on taxation issues
- Develop new and innovative ideas and start own enterprises
- Manage property and related issues
- Manage international business finance

Career Prospects:

- Chief Risk Officers / Takers
- Underwriters
- Financial Advisors
- Educationist
- Financial Risk Managers
- Compliance and Governance Managers
- Insurance Brokers / Insurance Adjusters
- Investment Analysts
- Portfolio Managers
- Credit Analysts
- Captive Insurers

Skills Developed:

- Financial management
- Presentation
- Research
- Analytical
- Critical thinking
- Entrepreneurial
- Problem solving
- Microsoft Word, Excel, Powerpoint

FACULTY OF BUSINESS & ACCOUNTING

Bachelor of Business Administration in Business Management

Programme details:

The BBA in Business Management equips students to become effective business management professionals in today's global marketplace. This program fosters the acquisition and development of key knowledge, skills, and competencies across a wide range of business functions and management tasks. The program will equip students with the skills to assess business challenges, recognize opportunities, and make well-informed strategic decisions. By offering a comprehensive set of tools, expert mentoring from industry leaders and academic professionals, and various support resources, the program ensures that students are well-prepared to succeed throughout their educational journey and achieve their degree. Graduates will be equipped with the knowledge, skills, and competencies necessary to lead and manage business operations effectively across various sectors and industries. The programme opens doors to a broad spectrum of management positions, making it a versatile degree with opportunities in diverse sectors.

Admission criteria:

- 1) BGCSE/equivalent with of 5 Passes including English and Mathematics.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Address practical business problems
- Make key business decisions
- Influence business strategy
- Analyse business data
- Manage and organize product portfolio
- Appraise corporate projects
- Manage small business
- Plan and implement strategic plan
- Establish new ventures
- Research and development

Career Prospects:

- Operations Manager
- Business Process Orchestration Analyst
- Business Consultant
- Business Lecturer
- Branch Supervisor
- Branch Manager
- Country Manager
- Change Management Consultant

Skills Developed:

- Understanding of facts and figures
- Computer skills
- Presentation skills
- Market intelligence
- Ability to deal with people
- Interest in starting and growing a business

FACULTY OF ENGINEERING & TECHNOLOGY

Bachelor of Science in Network Security and Computer Forensics

Programme details:

This programme equips students with a strong understanding of computer technology and networks as well as the skills and discipline required to protect these systems and data from malicious manipulation and attacks. With the acquired knowledge they can effectively address the rising need for cyber security in the corporate setting as technology continues to advance and get increasingly adapted in various processes.

Admission criteria:

- 1) BGCSE/equivalent with 5 Passes.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Design and develop network architecture and ensure security of the network
- Acquire knowledge of computer crime through forensic methods.
- Process Legal requirement for collecting evidence.

Career Prospects:

- Information Technology
- Computer Forensics Analysts
- Vulnerability Security research engineer
- Digital Forensics Examiner
- Malware Media Forensics Analysts
- Forensics Auditors
- Network Security Specialists
- Computer Crime Investigators or Security Analysts

Skills Developed:

- Networking Protocols
- Network Architecture and Design
- Routing and Switching
- Network Security
- Wireless Networking
- Network Management and Monitoring
- Network Virtualisation
- Cloud Computing and Networking
- Network Troubleshooting
- Cryptography
- Operating Systems
- Programming and Scripting
- Project Management

FACULTY OF ENGINEERING & TECHNOLOGY

Bachelor of Engineering in Electronics and Communication Engineering

Programme details:

The Bachelor of Engineering (BEng) in Electronics and Communication engineering is a comprehensive five-year, 600 credits undergraduate program designed to equip students with a deep understanding of electronic systems and communication technologies. Through a blend of theoretical knowledge, practical skills, and hands-on experience, students will develop the expertise necessary to thrive in the dynamic field of electronics and communication engineering.

Admission criteria:

1) BGCSE/equivalent with 5 Passes including Mathematics and Physics/Double Sciences/Physics + Chemistry.

2) Applicants in possession of a Diploma or Higher Diploma in related field will be given exemptions based on the credit point equivalency.

For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Demonstrate high technical proficiency in electronic systems and communication technologies.
- Excel in analytical problem-solving.
- Innovate solutions using emerging technologies.
- Communicate engineering concepts clearly.
- Collaborate effectively in diverse teams.
- Uphold ethical standards in engineering practice.
- Embrace lifelong learning and professional development.
- Demonstrate leadership and project management skills.
- Understand global engineering contexts.
- Exhibit an entrepreneurial approach to engineering.

Career Prospects:

- Electronics Engineer
- Communication Systems Engineer
- Network Engineer
- Embedded Systems Developer
- Signal Processing Engineer

Career Prospects Continuation.....

- RF Engineer
- Telecommunications Engineer
- Systems Engineer
- Research and Development (R&D) Engineer
- Project Manager
- Technical Sales Engineer
- Quality Assurance Engineer

Skills Developed:

- Technical Skills
- Problem-solving Skills
- Design and Development Skills
- Communication Skills
- Teamwork and Collaboration
- Research Skills
- Adaptability and Innovation
- Ethical and Professional Conduct
- Project Management Skills
- Continuous Learning and Professional Development

Bachelor of Engineering in Electrical Engineering

Programme details:

This programme runs for five years with a six-month internship programme where students will be expected to do Professional Practice. There is a need for Electrical Engineers in the Botswana engineering industry in organisations such as the Botswana Power Corporation (BPC), Botswana Telecommunication Corporation (BTC) and Morupule Coal Mine (MCM) as well as many construction companies. Graduates can also seek opportunities in international markets.

Admission criteria:

- 1) BGCSE/equivalent with 5 Passes including English, Mathematics and Physics/Double Sciences/Physics + Chemistry.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field will be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website www.bothouniversity.com

Graduates of this programme can:

- Find solutions for electrical systems and devise mechanisms for solving engineering problems related to the electrical industry
- Work in the power generation industry e.g. the Botswana Power Corporation
- Work with electronic devices such as large and small computers
- Work in scientific research and development
- Work in the computer hardware industry

Career Prospects:

- Power systems
- Household appliances
- Telecommunication industry
- Power transmission lines
- Management
- Consulting

Skills Developed:

- Designing skills needed in the electrical industry
- Mathematical and Logical skills
- Computer skills
- Professional writing
- Presentation skills

FACULTY OF ENGINEERING & TECHNOLOGY

Bachelor of Science in Cyber Security and Risk Management

Programme details:

This programme prepares students for a career in dealing with cybercrimes and risk management issues in both private and public institutions. Graduates will be able to apply knowledge gained in this programme to eliminate cybercrimes confronting most organisations. In the same vein, they will be able to guide organisations on how to eliminate the various risks that could obstruct organisations from achieving their goals and objectives.

Admission criteria:

1) BGCSE/equivalent with of 5 Passes including English and Mathematics.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this program can:

- Fight against any existing or foreseeable threats in the IT infrastructure.
- Manage the prevailing and foreseen IT risks in the business.
- Efficiently work in the IT industry to train the employees and employers the dos and don'ts of IT security.
- Design and Create a tight and secure IT infrastructure for business.
- Work on security frameworks and compliance for the corporates.
- Safeguard the ethical use of IT infrastructure in all aspects.
- Design policies for the IT industry which can protect against threats.

Career Prospects:

- Security Architect
- Penetration Tester (or Ethical Hacker)
- Cryptography
- Chief Information Security Officer
- Security Engineer
- Security Auditor (or Forensic Expert)
- Incident Responder
- Vulnerability Assessor

Skills Developed:

- Basic knowledge of networking
- Python programming
- Scripting languages
- Java programming
- Knowledge of current IT Laws

Bachelor of Science in Data Science

Programme details:

This programme is concerned with extracting intelligence from data by applying cutting-edge techniques from Statistics, Mathematics and Computer Science. The techniques used to understand the modern abundance of data are at the intersection of computing and mathematics, including statistics and machine learning, and there is a high demand in the industry. Furthermore, the qualification will aid in making data-driven decisions in the bid to attain Sustainable Environment and Sustainable Economic Development.

Admission criteria:

- 1) BGCSE/equivalent with 5 Passes including including English and Mathematics.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this program can:

- Apply data-driven models in various fields like finance, biology, health, education, agriculture, and many other fields
- Communicate in technical and non-technical terms concepts of Data Science in different sectors of the economy
- Develop new data processing models
- Apply developed models to various problems
- Develop multiple programming languages used for expressing solutions
- Safeguard the ethical use of data in all aspects of their profession
- Work effectively in a team
- Communicate effectively
- Develop research skills
- Develop entrepreneurial skills

Career Prospects:

- Data Analyst
- Data Mining Engineer
- Data Architect
- Data Scientist
- Senior Data Scientist
- Business Intelligence Analyst
- Machine Learning Scientist
- Clinical Data Managers

Skills Developed:

- Statistical analysis and computing
- Machine learning
- Deep learning
- Processing large data sets
- Data visualisation
- Data wrangling
- Mathematics
- Programming

FACULTY OF ENGINEERING & TECHNOLOGY

Bachelor of Technology in Software Engineering

Programme details:

This programme is designed to enable the students to create high-quality software applications for complex organisational environments, with an emphasis on good engineering practices that allow for ease of maintenance and the use of existing components. Candidates enrolled in this qualification will familiarise with the tools and rigorous methodologies used to develop mission-critical and safety-critical software systems. They will be equipped with skills to critically evaluate design paradigms, languages, algorithms, and techniques used to develop large-scale and complex software systems and a deep appreciation of the importance of software architecture, testing, documentation, and maintainability.

Admission criteria:

- 1) BGCSE/equivalent with 5 Passes.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this program can:

- Develop, design, test and maintain software projects.
- Adapt and use specific software needed for industry, business, or function.
- Apply latest technology and tools.
- Analyse, interpret and apply Software Engineering principles in different functional units of an organization.
- Reflect on their managerial decisions and to assess the effect thereof in the holistic context of Software Engineering as a practice.

Career Prospects:

- Analyst Programmers
- Software Developers
- Software Engineers
- Software Testers
- Web Developers
- Solutions Architects

Skills Developed:

- Programming Languages
- Software Development
- Data Structures and Algorithms
- Database Management
- Web Development
- Software Testing
- Object-Oriented Design
- Operating Systems
- Networking
- Project Management

FACULTY OF HEALTH & EDUCATION

Diploma in Occupational Health and Safety

Programme details:

This programme is intended to produce individuals with the competence to identify workplace hazards and implement appropriate mitigation and preventive strategies to achieve a compliant and sustainable OHS system within the context of established codes of practice and relevant legislative framework. The qualification will render the beneficiaries eligible for registration and accreditation with relevant national, regional, and international professional bodies.

Admission criteria:

- 1) BGCSE/equivalent.
- 2) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Carry out a Hazard Identification and Risk Assessment
- Conduct accident/incident investigations
- Provide leadership and training support to the organization and other practitioners to promote a culture of health and safety.
- Develop sound hazard control and monitoring strategies
- Contribute to the advancement of the OHS profession

Career Prospects:

- Risk Control Officer
- Loss Control Officer
- Safety Officer
- Safety Auditor
- Occupational Health and Safety Management Consultant
- Safety, Health and Environment Officer

Skills Developed:

- Adaptability and flexibility
- Energetic and an intense desire to learn
- Passion for OHS
- Highly organised and effective decision making
- Communication and networking expertise
- Attention to Detail and ability to listen
- Internet skills
- Language proficiency and cultural sensitivity
- Enthusiasm and dedication

FACULTY OF HEALTH & EDUCATION

Bachelor of Science in Health Information Management

Programme details:

This programme combines Science, Business, and Information Technology to ensure that students who undertake it come out furnished with the necessary skills they will need to work in middle to senior management grades in clinical and hospital settings or physicians' offices as Health Data & Information Managers, Bio Statisticians, Medical Informaticians, Data Quality Managers, Researchers, and Public Health Information Managers or Officers.

Admissions Criteria

- 1) BGCSE/equivalent with 5 Passes including English, Mathematics and Biology/Double Sciences.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Build effective systems to collect, generate, organise, collate, analyse, interpret and disseminate health related data
- Organise and present health related information for policy, planning and for operations management of the health sector
- Design data collection tools/instruments
- Conduct special studies/evaluations on health information areas
- Develop protocols/guidelines for health information management
- Develop and manage a health informatics infrastructure
- Develop and administer medical databases
- Ensure privacy and ethical practices when managing patient data
- Carry out medical transcription
- Carry out coding of diseases and drugs using ICD 10 or later standards

Career Prospects:

- Health Data & Information Management Officer/Managers
- Medical Informatician
- Data Quality Manager & Researcher
- Public Health Information Managers/ Officers
- Inpatient and Outpatient HIM Coder & Coding Educator
- Director – Coding Operations Hospital
- HIM Analyst/Coder
- HIM Programme Director
- Medical Coding Manager
- HIM Consultant
- HIM Practice Leader Operations
- Health Information Services Manager
- Insurance Manager
- Hospital Administrator

Skills Developed:

- Computer skills
- Professional writing
- Presentation skills
- Data collection and analysis skills
- Problem-solving skills
- Creative, critical, logical and analytical thinking skills
- Team building and management skills

Bachelor of Science in Safety, Health and Environmental Management

Programme details:

This programme will equip students with skills that will empower and capacitate them with abilities to penetrate the industrial market and atmospheres, they can engage in safety, health, and environmental consultancy as well as work as Safety, Health, and Environmental officers and managers. Additionally, the graduates may acquire positions as Environmental Policy analysts as well as OHS trainers, inspectors, practitioners, and assessors. In academic progression, this qualification may work as a baseline entry qualification into various fields of vertical progression towards postgraduate qualifications like Environmental Management, Risk and Safety Management, Public Policy and Health and any other relevant field as may be fit.

Admission criteria:

1) BGCSE/equivalent with 5 Passes including English, Mathematics/Statistics and Science with a credit.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Demonstrate knowledge and understanding of concepts of Occupational Safety, Health and Environmental Management
- Conduct accident/incident investigations
- Critically and comprehensively analyse Safety, Health, and Environmental risks at the workplace and external environments
- Develop practical, sustainable, cost-effective, and environmentally friendly solutions and alternatives in addressing challenges on safety, health, and environmental management at the workplace and beyond
- Formulate programs with a mandate to drive environmental sustainability for safe, sustainable and healthy human capital
- Investigate the effects of exposures to occupational health, safety and environmental stressors
- Engage in academic debates and research forums on issues addressing Safety, Health and Environmental Management

Career Prospects:

- Safety, Health and Environment Representatives
- Occupational Health and Safety Management Consultants
- Safety, Health and Environment Managers and officers
- Safety, Health and Environment Policy Analyst and Developers
- Safety, Health and Environment Officers
- Environmental Officers
- Environmental Managers

1. Applying to Botho University

Before applying to Botho University, students are encouraged to take time out to familiarise themselves with all the programmes on offer. Applicants must meet all the relevant minimum requirements for the programme of study they wish to study. It is also important for applicants to assess whether the programme they choose interests them and that they want to make a career out of it. Our friendly Admission Team Counsellors will provide information needed about the programmes and assist applicants to make informed choices. Details on programmes are available on our website: www.bothouniversity.com

2. How to calculate points

The admission point system is used to measure your academic achievement based on your school-leaving results. Your school-leaving subject grades or percentages are converted into points as per the table above and based on your qualification. These points are added up to arrive at the number of points you have obtained.

3. Important points to remember when applying

- All students can apply in person or using the online application form available on the website.
- Clear certified copies of all relevant educational certificates.
- Clear certified copies of passport/identity card.
- Please read the Fee Structure and Policy document available on the website before applying.
- Should you have any doubts on the application process please contact our admissions department for further assistance.

NURTURING STUDENT SUCCESS

OUR EMPLOYABILITY SERVICES

Experience #Vibrance at Botho University: Offering an #enriching #transformational #globalstandard student life experience

Any student considering their long term career options can be rest assured that Botho University's highly industry relevant programs of study will help them achieve all their academic goals. However students must also consider Botho University for its strong focus on offering an unforgettable and positive university experience during their time with us.

Botho University offers relevant, high quality, innovative and digitally driven support services to ensure that all students have an extremely meaningful and fulfilling experience with us. The Student and Alumni Affairs Department or SAAD is the department that offers a host of wellness, welfare, employability and entrepreneurship related services to all students to ensure they receive an amazing return on their investment by being a student of Botho University. The SAAD ensures that Botho University offers an environment that fosters a highly practical, deeply engaging learning experience through a nurturing, positive and caring environment. We are a department that is deeply committed to #StudentSuccess through all our services.

Academic and Psychosocial Counseling Services:

SAAD offers the services of trained and well qualified counselors for students to ensure their physical, mental, emotional and academic well being while at Botho University. The Counselors offer their services in a secure and confidential manner to help students cope with any challenges they may be facing.

Special Needs support:

SAAD has the services of a highly trained and well experienced Special Needs Coordinator who is dedicated to managing the welfare of students with special needs. In line with Botho University commitment to offering an inclusive environment to all students, special needs students receive a host of services including but not limited to dedicated teaching aids, individual education plans, classroom support, special assistance for assessments and evaluation and access to a well equipped resource centre. All students irrespective of gender, race, ethnic origin or ability are welcome at Botho University.

Health and Wellness:

SAAD is responsible for operating all health and wellness services including clinic services. The institution also has contracts with emergency medical service providers for emergency evacuation and prompt medical attention at the nearest registered healthcare facility for all students and staff on campus. The institution also has a qualified and trained nurse to offer assistance with minor illness, referrals to major clinics and hospitals and conduct workshop and awareness programmes in partnership with other external health care providers in the country. These include HIV and AIDS interventions, blood donations, male circumcision, cancer awareness, alcohol and substance abuse and other such important campaigns to build a healthy generation of learners on campus.

NURTURING STUDENT SUCCESS

Sports Culture and Recreation:

SAAD is responsible for hosting a variety of sporting and non sporting clubs on campus to provide students opportunities for discovering their talents and pursuing a variety of activities aimed at their holistic development beyond the confines of the classroom. The institution has access to well equipped sporting facilities either on campus or through collaborations with external providers. The institution invests into memberships with a number of reputable sporting associations across the country to offer students the opportunities to participate in sporting events between institutions and at national and international level. Trained and passionate sports and club coaches are appointed by SAAD to manage all registered clubs and offer dedicated training for superior performance. Botho University has over the years produced many national and international athletes and non sporting club achievers due to its emphasis on providing an environment for students to express themselves through sport, clubs and a host of recreational activities. SAAD encourages creativity and talent at all levels and provides students ample opportunities and support to explore their interests.

Internship Guidance and Support:

SAAD prides itself on being a leader in offering a host of path breaking career development services to all students. All students are expected to complete a credit bearing mandatory internship.

SAAD is fully committed to preparing students from the moment they enter the university to prepare them for maximizing their internship experience including CV preparation, mock interviews, internship workshops prior to the start of internship to align academic and professional development expectations, support to students in finding relevant internships through our vast network of industry partners, handling all administrative matters related to internships and overall ensuring that all students utilise their internship not just to gain academic credit but also to emerge industry ready and with valuable work experience. SAAD has ensured that Botho University has a 100% internship placement rate for more than 10 plus years of offering academic internships to all students in all countries of operation.

Community Engagement:

SAAD is responsible for all community engagement activities at Botho University. This is in line with developing students who are socially responsible individuals using their education for the greater good and finding solutions to the problems of the local community.

SAAD constantly creates opportunities for our students to participate in volunteering activities, community service and development events, empowerment of disadvantaged, underprivileged and economically constrained sections of society through training, workshops, donations, bootcamps, awareness campaigns etc.

We establish long term partnerships with communities and NGOs to offer our students an insight into their challenges and use critical thinking and problem solving skills to participate and implement programs that try to mitigate these issues. This is all done in fostering a spirit of Botho and compassion in all our students during their tenure of study with us.

NURTURING STUDENT SUCCESS

Graduate Placement Support:

SAAD at Botho University is committed to tackling high unemployment rates by focusing on employability. The department engages with industry to create partnerships offering assured placement support for students and graduates. Over the past 5 years, SAAD has earned a reputation for providing this groundbreaking service, helping employers find fresh graduates quickly. SAAD manages all placement-related tasks, including understanding employer needs, advertising to alumni, shortlisting candidates, organizing interviews, and ensuring requirements are met. It also hosts successful annual employability fairs, including virtual platforms, the first in Southern Africa. Through these efforts, SAAD has placed hundreds of Botho graduates with reputable employers.

Alumni Relations:

Alumni engagement is any educational providers' return on investment. Alumni are an important part of the Botho community and SAAD prioritizes alumni engagement. SAAD actively works to establish lifelong connections with our graduates primarily through our alumni association Facebook page with more than 5000 members and growing.

The Alumni association offers immense value to members by constantly advertising opportunities for professional development including scholarships to study abroad, placement and volunteer opportunities, exclusive access to career development events, expert speakers, training workshops, webinars on topics of interest, constant updates on developments at Botho University as a pan-african provider of quality education, networking platforms, alumni discounts and benefits, tracer studies and so much more.

SAAD ensures that once you enter the Botho community, you are a lifelong member and have access to immense opportunities exclusive to Botho University graduates.

Student Exchange:

Botho University being a pan-African university has many international agreements with highly reputable quality universities globally for purposes of student exchange.

SAAD offers this as one more career development opportunity for eligible students to be able to study abroad for a semester at any one of our partner universities based in Germany, Sweden, Turkey, India, or South Africa. We have been sending Botho University students to study on exchange since 2016.

SAAD invests a lot of time in nurturing these exchange opportunities to ensure students gain maximum exposure. Botho University has also had the unique privilege of being able to successfully host international students from our university partners in Sweden, Germany, and South Africa specifically at our Botswana campus bringing diversity and intercultural collaboration to our local students. Through student exchange, Botho University offers an unbeatable, multicultural, and international university atmosphere at par with any global university to our students. We continue to grow our network to partnerships with universities in new countries to keep up with the growing demand for student exchange on campus.

NURTURING STUDENT SUCCESS

Remote internships at Botho University - Digitally Transforming Education by bringing international employers to embrace African Potential

Botho University is digitally transforming education. All our students are required to complete an industry relevant internship during their program of study. Botho University students can now complete their internship by being placed with an international employer through the efforts of the Students and Alumni Affairs Department. We offer virtual internships through our partnership with two of the world's leading virtual internship agencies namely Virtual Internships and Next Step Connections.

Remote Internships offers our students guaranteed remote internships with companies across the globe.

In addition to the immense benefits of working with international employers on cutting edge projects and technologies not available locally, virtual internships also provide Botho University students with additional advantages such as career development courses leading to certifications, dedicated career coaching, exclusive professional development sessions with leading global experts and a lifelong membership to an international community of virtual internship students from universities across the globe.

Botho University students have excelled at virtual internships opportunities since inception bringing in global recognition for us for using technology to provide global opportunities to our students and transforming their scope of possibilities. Botho University students are now able to aspire for international employment and are at a distinct advantage having had global exposure and demonstrating their digital literacy skills - a must have 21st century employability skill.

Entrepreneurship Lab:

SAAD offers the services of our ELab or Entrepreneurship Lab to enterprising students and graduates of Botho University who have aspirations of being entrepreneurs.

This is our inhouse incubator established in 2016 which offers early stage business incubation services. SAAD has cultivated a host of external partnerships in the local entrepreneurship ecosystem to also offer added value and a host of benefits to our students and graduate entrepreneurs including seed funding, mentorship, expert training, networking opportunities, access to national and international pitching competitions, high quality custom built ideation and coworking spaces through our external partners and linkages to international communities of aspiring entrepreneurs.

SAAD has been repeatedly invited by many leading external organisations on national and international platforms to share our expertise on entrepreneurship development. Botho University ELab graduates have gone on to establish successful businesses and represented us and the nation winning themselves accolades on many international pitching competitions.
