

1. Purpose

This policy outlines the tuition fee principles at Botho University and explains how tuition fees are calculated, paid, and managed.

2. Scope

This policy applies to **all students** of Botho University.

Each student is responsible for the payment of their tuition fees. In cases where a sponsor (e.g., government, employer, or parent) fails to pay on behalf of the student, the student will be deemed financially liable and may face withdrawal due to non-payment.

3. Definitions

- **Tuition Fees:** Semester-based charges for academic services provided by the University.
- **Sponsor:** Any individual or organization (such as parents, employers, or government agencies) contributing to a student's tuition fees.
- **Credit based tuition fee:** Each programme consists of modules, and each module carries a specific number of credits. Fees are charged based on the number of credits applicable to each module.

4. Fee Calculation

Botho University uses a **credit-based tuition fee structure**, where:

- **Tuition Fee = Number of Credits × Fee per Credit**
- Additional surcharges may apply for modules that require specialized equipment or resources.
- The total programme fee is the sum of fees for all required modules necessary to complete a qualification.
- Refer to table 1 to 4 for further details
